ECA Overview & Schools Buddy Introduction

2025/26 BLOCK B

Schools Buddy and ECA Information

Schools Buddy

Moving forward, we will only be using Schools Buddy for registrations of ASC, ECA, & Piano. This will allow us to keep track of records more accurately, and control the sign-up period for each block.

As this is a new system, we are here for questions and concerns.

How it Works

Schools Buddy essentially is a registration tool that can monitor and record the checking in and out process of the children attending ASC and ECA. Parents will also be able to view information on registered ASC and ECA, and other activities that will be added during the year. It also allows transparency with cost breakdowns through the different Blocks.

How to Use

Please check your emails (junk as well) for the Schools Buddy activation email. Simply register with the same email you have for iSAMS and input any relevant information to move forward. Please only register and search for ASC and ECA at Campus Luzern **NOT** Zug.

Need to know

- Please ensure you have your Schools Buddy set up or you will not be able to register
- Please remember we have two campuses, you need to only be on Luzern. If you try and sign up or click anything to do with Zug, nothing will go through, and you will not see any information relating to your children.
- Ensure to check your spam if you have not received the activation email.
- Please register in the correct 'container' for example: **Block B ASC** - Monday **16:30 - 18:00** + **Block B ECA** - Spark Science **15:30 - 16:30.** This design covers the ECA registration with the additional ASC care you may require after the club ends.
- There are two registration allocations: Preference Based and Instant Book. I**nstant Book is for ASC Care** and **Preference Based is for ECA.** No payment is require for any booking or reservation on Schools Buddy, we will continue to invoice as normal.
- You will find a break down of all necessary information during the sign up process. Exact breakdown of ASC care times for specific slots, and additional costs when late pick-ups occur.
- Please read through the Terms and Conditions that have been updated and placed in each container, these conditions are relevant throughout the entire semester.

Key Features of the Program

- Limited Spaces for Enhanced Learning: Each course has a defined capacity to ensure an optimal environment for all participants. Spaces are allocated on a first-come, first-served basis.
- 10-Week Commitment: Registrations are now made per 10-week block, allowing parents and students to evaluate their participation on a more manageable timeline.
- Mid-Block Entry: Students may join mid-block if spaces are available, ensuring flexibility while maintaining group continuity.

Expert-Led Activities

All activities will be coached and taught by professionals who specialise in their respective fields. Each course is conducted by trusted external companies, carefully selected by Four-Forest to ensure the highest quality instruction and enriching experiences for our students.

Important Information

Behavioural Polices

At Four-Forest Luzern we expect the students to maintain a level of respect and awareness for the teachers, peers, and external staff members. We reserve the right to remove your child if they are not following our behavioural standards. This includes but is not limited to: disrespectful language, bullying, physical voilence, continuous negative feedback from club providers, and disruptive behaviour/language.
Please visit the link below to review our behaviour policy:

External Companies

Our external providers have been providing their services to many schools around Zurich, Zug, and Luzern for many years. During the trial period, the teachers you may meet may not be the definite club teacher once ECA's officially start. Once ECA's are confirmed, an email will be sent out to introduce you to the club teachers and their experience and qualifications. All external providers will have back-up-teachers if that exact teacher is sick or otherwise unable to provide the club on a particular day, so the entire block is secure for attendance.

Cancellations and Refunds

As we are running the program in 10-week blocks, cancellations will not be necessary to submit. Before the end of the 10-week block, a new schedule will be sent out for you to sign-up for. However, if you wish to cancel during the 10-week block please get in touch with us via email. Refunds are not applicable for absences or withdrawals made after the block begins.

Trial Week

The trial week is always the first week that the new block starts. You sign up for the clubs you are interested in, participate and decide whether you would like to continue through the 10-weeks. If you participate in the following week, **you will be marked down as registered for the 10-week programme** and therefore will be charged accordingly. **If you withdrawal after the first week and do not continue, you will not be charged**. Please be aware and keep in contact with the appropriate people during this process.

Sign-Ups

Sign-ups will open on the 22nd and will close on the 26th Please ensure to check your email for the activation of Schools Buddy as all sign-ups will be recorded through this new system.

ECA Clubs Overview

Tech Academy

Over the 10 weeks, club members will dive into hands-on Artificial
Intelligence sessions, coding, and epic build-and-program adventures
with Lego® Mindstorms EV3. Each week, participants tackle real-world challenges, teaching machines
to "think," building prototypes, and bringing autonomous robots to life with Coding skills.
Starting with Artificial Intelligence to allow the members to integrate it into daily life and club sessions.

1. Tuesday Class - Description for the Course (G1 & G2)

In Future Technologies – Level 1 Pioneers, young Pioneers take their first steps into the exciting world of robotics, electronics, and digital innovation.Through hands-on activities, they discover how technology works and how imagination can turn into invention. Using child-friendly robots such as Blue Bot, Ozobot, and Thymio, students learn to plan, code, and solve problems in creative ways. Simple electronics projects introduce them to circuits and sensors, helping them understand how machines sense and react to their environment.
As their skills grow, they move on to building and programming their own LEGO robot, combining logic, teamwork, and creativity in one final project.

2. Thursday Class - Description for the Course (G3 -G6)

Future Technologies - Level 2 Inventor. Students take their next step into the world of innovation and intelligent systems. they explore how technology not only follows commands but can also think, learn, and create.
Through hands-on projects, they experiment with AI tools, see how artificial intelligence is used in everyday life. They also get their first experience with 3D design and 3D printing, turning digital ideas into real objects.
At an advanced level of robotics, students design, build, and program robots capable of solving more complex challenges—combining creativity, logic, and engineering skills.

Spark Science

Exciting and educational afterschool programmes for children.
Extract DNA, make bouncy balls, and discover the science of static with some hair raising experiments.

See link attached to find further information about Spark Science
https://www.sparkscience.ch

Simply Theatre

We have some brilliant facilitators on our team who are passionate about delivering engaging,
high-energy sessions that really inspire young people. The programme will give the children a wonderful opportunity to expand their love of performing arts, build their confidence in being themselves, and develop strong communication skills, and all while having a lot of fun along the way.

ECA Clubs Overview

Masterplan AcadeME
As the premiere beyond school provider for children and teens, our mission is to empower children to explore their interests, passions and creativity in an age-appropriate manner.

Please see link attached for further information about Masterplan
https://ch.masterplanacademe.com

The Tanzhaus Luzern
Managed by Olivia Lecomte, a former professional dancer and choreographer.
We are proud of our certified dance teachers, who each have had an extensive dance education as well as professional stage experience. As members of the IG Tanz Zentralschweiz and Dance Suisse, the Tanzhaus Luzern ensures that students receive the best possible training available in Luzern.

Please see link attached for further information about Tanzhaus
https://www.tanzhausluzern.ch

Frota Academy
Offers supreme-quality martial arts programs, with instructors who have decades' worth of coaching and fighting experience. Brazilian Jiu-Jitsu is a great sport for kids – it develops their self-confidence, motor and self-defense skills, and allows them to spend time in a healthy, supportive environment.

Please see link attached for further information about

INTRODUCING SCHOOLS BUDDY

Introducing SchoolsBuddy for ECA & ASC Sign-Ups

We are pleased to announce that Four Forest Luzern will now be using SchoolsBuddy for all Extra-Curricular Activity (ECA) and After-School Care (ASC) registrations.

Schools Buddy is an online platform that allows families to view, register, and manage their child's activities in one place. This new system will streamline our processes and ensure that all information matches across schedules, communication, billing, and daily care records.

Why are we introducing Schools Buddy?

Previously, sign-ups, schedule changes, and communication were handled across multiple channels. Schools Buddy brings everything together to ensure:

- Clear and accurate registrations
- Up-to-date attendance and pick-up information
- A full overview of your child's activities and care schedule
- Better coordination between school staff and external providers
- Reduced mistakes and clearer communication with families

This will help us maintain correct staffing levels, provide consistent supervision, and ensure a smooth experience for all students.

Through your parent login, you will be able to:

- View all ECA and ASC options for the upcoming block
- Register your child directly in the system
- Review activity dates and times
- See pick-up timing and instructions
- Access Terms & Conditions, Behaviour Policy, and ASC guidelines
- View check in and check out updates

Important

From now on, all ECA and ASC sign-ups will take place through Schools Buddy only.

Please ensure you have activated your account and reviewed the information provided.

If you have any questions or need support with the platform, please contact:

Charlotte Mills (Operations & Activities Coordinator).

We are happy to help you get started.

Four Forest

Important Information to Get Started

- **Year Overview:** Please find attached the full ECA calendar showing start and end dates for each block.
- **ASC Registration**: ASC Care is registered by semester. Ensure you select the correct time slots for your child.
- **Read Carefully:** Please review the Terms & Conditions in SchoolsBuddy before confirming your bookings.
- **What You'll See:** We've attached below a sample layout so you can preview how ECA and ASC Care selections appear in the system.
- **Looking Ahead (Block C):** The same process and measures will apply for Block C. We'll share registration dates and the updated ECA overview in advance.
- **Questions or Changes:** Contact Charlotte Mills at Charlotte.mills@four-forestschool.ch for any concerns, questions, or instructions.

PLEASE BE AWARE THAT ON THE NEXT PAGE YOUR PARENT VIEW WILL LOOK DIFFERENT - THIS IS AN EXAMPLE OF THE ALLOCATIONS ON SCHOOLS BUDDY. YOU WILL ONLY SEE WHAT IS AVAILABLE TO YOU ONCE YOU HAVE REGISTERED.

Four Forest

Schools Buddy ECA Overview

Here you will open the Block B selection and find all available ECA activities for each day, time, cost, location, language, and provider. You will also notice the 'Preference Based' container.

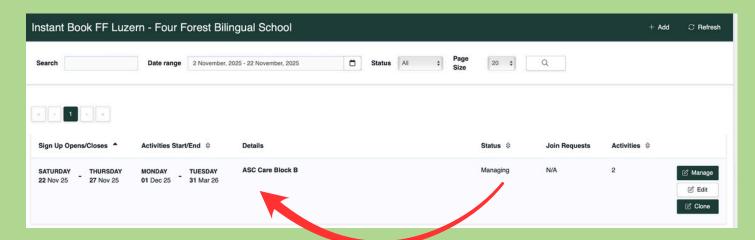

Here you will see all the ECA activities listed. **Please be advised that this is only an example template.** Some ECA's will only be available to certain grades, this information can also be seen in the description.

Once the platform is ready for parents to use, you will see an automatic registration that follows and if space accommodates, you will receive a conformation on Schools Buddy.
